

The American Trust
Allegiance Fund

Investor Class: ATAFX

PROSPECTUS
June 28, 2020

The American Trust Allegiance Fund is a diversified, no-load mutual fund that invests in stocks that it expects will appreciate in value over time, while following a socially responsible investment policy.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund (defined herein) or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically through the Fund's website.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper may apply to all funds held through your financial intermediary.

The U.S. Securities and Exchange Commission has not approved or disapproved these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

SUMMARY SECTION

Investment Objective

The American Trust Allegiance Fund (the “Fund”) seeks capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

SHAREHOLDER FEES (fees paid directly from your investment)	None
ANNUAL FUND OPERATING EXPENSES (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	0.95%
Other Expenses	0.94%
Total Annual Fund Operating Expenses ⁽¹⁾	<hr/> 1.89%
Less: Fee Waiver ⁽²⁾	<hr/> -0.43%
Total Annual Fund Operating Expenses After Fee Waiver	<hr/> <hr/> 1.46%

⁽¹⁾ Total Annual Fund Operating Expenses do not correlate to the Ratio of Expenses to Average Net Assets Before Fee Waiver provided in the Financial Highlights section of the statutory prospectus, which reflects the actual operating expenses of the Fund and does not include 0.01% that is attributed to acquired fund fees and expenses (“AFFE”).

⁽²⁾ American Trust Investment Advisors, LLC (the “Advisor”) has contractually agreed to waive a portion or all of its management fee and pay Fund expenses to ensure that Total Annual Fund Operating Expenses After Fee Waiver (excluding AFFE, taxes, interest expense, and extraordinary expenses) do not exceed 1.45% of the Fund’s average daily net assets (the “Expense Cap”). The Expense Cap will remain in effect through at least June 27, 2021, and may be terminated only by the Fund’s Board of Trustees (the “Board”). The Advisor may request recoupment of previously waived fees and paid expenses from the Fund for 36 months from the date they were waived or paid, subject to the Expense Cap.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year, and that the Fund’s operating expenses remain the same (taking into account the contractual Expense Cap only in the first year). Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1 Year

\$149

3 Years

\$552

5 Years

\$981

10 Years

\$2,177

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 46% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Advisor selects principally domestic and foreign stocks for the Fund’s portfolio that it expects will appreciate in value over the long term. Under normal market conditions, the Fund will invest at least 85% of its net assets (plus any borrowings for investment purposes) in domestic and foreign equity securities including both long and short positions. Short positions are limited to 10% of the Fund’s net assets. The Advisor uses a “bottom up” approach to stock investing and does not attempt to forecast the U.S. economy, interest rates, inflation or the U.S. stock market. The Advisor focuses on finding companies that meet its financial criteria, including either a history of consistent earnings and revenue growth or strong prospects of earnings and revenue growth, and a strong balance sheet. With respect to long equity positions, the Advisor purchases the securities of a company with the intention of holding them, under normal circumstances, for a minimum of three years. The Advisor typically purchases securities of companies which demonstrate leadership, operating momentum and strong prospects for annual growth rates of 10% or better. The Advisor may decide to sell a security due to changes in fundamentals, such as marked deceleration in earnings growth, decline in revenues or deterioration of the balance sheet, or a change in a company’s valuation or competitive position. Normally, the companies in which the Fund invests represent ten major economic or market sectors: consumer discretionary, consumer staples, energy, financial services, technology, industrials, utilities, communication services, materials and real estate. The Fund may have significant exposure to one or more of these sectors.

The Fund avoids investments in companies that have significant involvement in the tobacco, pharmaceuticals, biotechnology, medical diagnostic services and products, gambling and liquor industries, although the Fund may engage in short sales of these companies. While the Fund may invest in or sell short a company that conducts operations in one of these industries, the Fund will not invest in such a company unless current revenues from these industries represent less than 5% of the total revenues of the company at the time of investment. The majority of companies in which the Fund invests will have no operations in these industries.

The Advisor expects that the Fund's portfolio will generally consist predominantly of mid- and large-capitalization stocks, but in some market environments small-capitalization stocks may constitute a large portion of the Fund's portfolio. The Advisor considers a small-capitalization stock to be one with a market capitalization of less than \$1 billion at the time of investment; a mid-capitalization stock to be one with a market capitalization of between \$1 billion and \$10 billion at the time of investment; and a large-capitalization stock to be one with a market capitalization of more than \$10 billion at the time of investment. The Fund may invest up to 40% of its net assets in foreign companies, including up to 30% of the Fund's net assets in emerging markets, through U.S. listed securities, depositary receipts, such as, American Depositary Receipts ("ADRs"), or through purchases on foreign exchanges.

Principal Investment Risks

Losing all or a portion of your investment is a risk of investing in the Fund. There is no assurance that the Fund's investment objective will be achieved. The following principal risks could affect the value of your investment:

- *Market and Regulatory Risk.* Events in the financial markets and economy may cause volatility and uncertainty and adversely impact the Fund's performance. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments. The Fund's investments may decline in value due to factors affecting individual issuers (such as the results of supply and demand), or sectors within the securities markets. The value of a security or other investment also may go up or down due to general market conditions that are not specifically related to a particular issuer, such as real or perceived adverse economic conditions, changes in interest rates or exchange rates, or adverse investor sentiment generally. In addition, unexpected events and their aftermaths, such as the spread of deadly diseases; natural, environmental or man-made disasters;

financial, political or social disruptions; terrorism and war; and other tragedies or catastrophes, can cause investor fear and panic, which can adversely affect the economies of many companies, sectors, nations, regions and the market in general, in ways that cannot necessarily be foreseen.

- *Equity Securities Risk.* The price of equity securities may rise or fall because of economic or political changes or changes in a company's financial condition, sometimes rapidly or unpredictably. These price movements may result from factors affecting individual companies, sectors or industries selected for the Fund's portfolio or the securities market as a whole, such as changes in economic or political conditions.
- *Management Risk.* Your investment in the Fund varies with the success and failure of the Advisor's investment strategies, as well as the Advisor's research, analysis and determination of portfolio securities.
- *Foreign Securities Risk.* Investing in foreign securities typically involves more risks than investing in U.S. securities, and includes risks associated with: (1) internal and external political and economic developments – e.g., the political, economic and social policies and structures of some foreign countries may be less stable and more volatile than those in the U.S. or some foreign countries may be subject to trading restrictions or economic sanctions; (2) trading practices – e.g., government supervision and regulation of foreign securities and currency markets, trading systems and brokers may be less than in the U.S.; (3) availability of information – e.g., foreign issuers may not be subject to the same disclosure, accounting and financial reporting standards and practices as U.S. issuers; (4) limited markets – e.g., the securities of certain foreign issuers may be less liquid (harder to sell) and more volatile; and (5) currency exchange rate fluctuations and policies.
- *Emerging Markets Risk.* Investing in securities of issuers located in emerging markets poses greater risk of social, political and economic instability, which could affect the Fund's investments. Emerging market countries may have smaller securities markets and therefore less liquidity and greater price volatility than more developed markets.
- *ADR Risk.* Investing in ADRs may involve risks in addition to the risks in domestic investments, including less regulatory oversight and less publicly-available information, less stable governments and economies, and non-uniform accounting, auditing and financial reporting standards.
- *Sector Emphasis Risk.* If the Fund's portfolio is overweighted in certain sectors or related sectors, any negative development affecting that sector will have a greater impact on the Fund than a fund that is not overweight in that sector.

- *Socially Responsible Investing Policy Risk.* The Fund's portfolio is subject to socially responsible investment criteria. As a result, the Fund may pass up opportunities to buy certain securities when it is otherwise advantageous to do so, or may sell securities for social reasons when it is otherwise disadvantageous to do so.
- *Small- and Medium-Sized Company Risk.* Securities of companies with smaller market capitalizations tend to be more volatile and less liquid than larger market capitalization stocks.
- *Large-Sized Company Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges like changes in consumer tastes or innovative smaller competitors. In addition, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- *Short Sales Risk.* Short sales involve specific risk considerations and may be considered a speculative technique. The Fund may incur a loss as a result of a short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the security sold short. Short sales transactions involve leverage because they can provide investment exposure in an amount exceeding the initial investment.
- *Real Estate Investment Trust (REIT) Risk.* Investments in REITs will be subject to the risks associated with the direct ownership of real estate and annual compliance with tax rules applicable to REITs. Risks commonly associated with the direct ownership of real estate include fluctuations in the value of underlying properties, defaults by borrowers or tenants, changes in interest rates and risks related to general or local economic conditions. In addition, REITs have their own expenses, and the Fund will bear a proportionate share of those expenses.

The Fund may be appropriate for investors who:

- Want exposure to investments in companies that promote social responsibility;
- Are pursuing a long-term goal such as retirement and those seeking the potential for long-term capital appreciation; and
- Are willing to accept higher short-term risk along with higher potential for long-term growth of capital.

Fund Performance

The following performance information provides some indication of the risks of investing in the Fund. The bar chart shows the annual return for the Fund from year to year. The table shows how the Fund's average annual returns for the 1-, 5-, 10-year, and since inception periods, compare with those of a broad measure of market performance. The Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund's website at www.allegiancefund.com or by calling toll free at 1-800-385-7003.

Calendar Year Total Returns as of December 31*

* The Fund's year-to-date total return as of March 31, 2020 was -27.42% .

Highest Quarterly Return	1Q: 2012	14.96%
Lowest Quarterly Return	3Q: 2011	-16.34%

Average Annual Total Returns

(For the periods ended December 31, 2019)

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>	<u>Since Inception (3/11/1997)</u>
Return Before Taxes	29.25%	6.91%	9.13%	6.73%
Return After Taxes on Distributions	26.20%	5.44%	8.19%	6.24%
Return After Taxes on Distributions and Sale of Fund Shares	19.38%	5.22%	7.35%	5.67%
S&P 500® Index (reflects no deduction for fees, expenses, or taxes)	31.49%	11.70%	13.56%	8.27%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your situation and may differ from those shown. After-tax returns shown are not relevant to those who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts (“IRAs”).

Management

Investment Advisor. American Trust Investment Advisors, LLC is the Fund’s investment advisor.

Portfolio Managers. Paul H. Collins and Carey Callaghan are the co-portfolio managers responsible for the day-to-day management of the Fund. Mr. Collins is President of the Advisor and has been a portfolio manager of the Fund since its inception. Mr. Callaghan is Chief Investment Officer at the Advisor, and has been a portfolio manager of the Fund since he joined the Advisor in August 2006.

Purchase and Sale of Fund Shares

You may purchase or redeem Fund shares on any business day by written request via mail (The American Trust Allegiance Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701), by telephone at 1-800-385-7003, by wire transfer, or through a financial intermediary. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly.

Type of Account	To Open Your Account	To Add to Your Account
Regular Accounts and Uniform Gifts/Transfers to Minors Act	\$2,500	\$250
IRA, Coverdell Education Savings Accounts and Automatic Investment Plan	\$1,000	\$100

Tax Information

The Fund’s distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through tax-deferred arrangements, such as a 401(k) plan or an IRA. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

MORE INFORMATION ABOUT THE FUND

Principal Investment Strategies

The Advisor selects domestic and foreign stocks for the Fund's portfolio that it expects will appreciate in value over the long term. Under normal market conditions, the Fund will invest at least 85% of its net assets (plus any borrowings for investment purposes) in domestic and foreign equity securities, including both long and short positions. The Advisor uses a "bottom up" approach to stock investing and does not attempt to forecast the U.S. economy, interest rates, inflation or the U.S. stock market. The Advisor uses fundamental analysis when researching potential investment candidates. Sources of research include stock screening, meetings with corporate officers, financial and industry publications, annual reports, regulatory filings, corporate rating services and third-party research. The Advisor focuses on finding companies that meet its financial criteria, including either a history of consistent earnings and revenue growth or strong prospects of earnings and revenue growth, and a strong balance sheet. With respect to long equity positions, the Advisor purchases the securities of a company with the intention of holding them for a minimum of three years, subject to changes in fundamentals, such as marked deceleration in earnings growth, decline in revenues or deterioration of the balance sheet, or a change in a company's valuation or competitive position. The Advisor typically purchases securities of companies which demonstrate leadership, operating momentum and strong prospects for annual growth rates of 10% or better. Normally, the companies in which the Fund invests represent ten major economic or market sectors: consumer discretionary, consumer staples, energy, financial services, technology, industrials, utilities, communication services, materials and real estate. The Fund may have significant exposure to one or more of these sectors. With respect to short sale positions (see below), the Advisor initiates a position with the intention of closing it within one year or less. In contrast to long positions, the Advisor is looking for poor leadership, deteriorating momentum and/or unrealistic expectations with respect to financial results or stock valuation.

The Fund avoids investments in companies that have significant involvement in the tobacco, pharmaceuticals, biotechnology, medical diagnostic services and products, gambling and liquor industries. While the Fund may invest in a company that conducts operations in one of these industries, the Fund will not invest in such a company unless current revenues from these industries represent less than 5% of the total revenues of the company at the time of investment. The majority of companies in which the Fund invests will have no operations in these industries.

The Fund is authorized to engage in short sales of stocks, including those involved in the tobacco, pharmaceuticals, biotechnology, medical diagnostic services and

products, gambling and liquor industries. In a short sale, the Advisor borrows the stocks of a target company and sells them “short,” with the hope that the price will decline. The Fund is obligated to repurchase these positions in order to close out the investment. In this way, Fund shareholders are positioned to benefit from a potential decline in the value of these stocks, without ever owning the stocks. Short positions are limited to 10% of the net assets of the Fund, and this is considered a secondary investment strategy of the Fund. This strategy could prove, however, to be a useful hedge in a declining overall stock market environment, and is designed to maximize the benefits to Fund shareholders of the Advisor’s investment in stock research and security analysis.

The Advisor expects that the Fund’s portfolio will generally consist predominantly of mid- and large-capitalization stocks, but in some market environments small-capitalization stocks may constitute a large portion of the Fund’s portfolio. A small-capitalization stock is considered to be one with a market capitalization of less than \$1 billion at the time of investment; a mid-capitalization stock is considered to be one with a market capitalization of between \$1 billion and \$10 billion at the time of investment; and a large-capitalization stock is considered to be one with a market capitalization of more than \$10 billion at the time of investment. The Fund may invest up to 40% of its net assets in foreign companies, including up to 30% of the Fund’s net assets in emerging markets, either through U.S. listed securities, depositary receipts, such as ADRs, or through purchases on foreign exchanges. ADRs are equity securities traded on U.S. exchanges that are generally issued by banks or trust companies to evidence ownership of foreign equity securities. The Fund may also invest up to 25% of its net assets in REITs.

The Fund’s portfolio turnover rate may vary substantially from year to year since portfolio adjustments are made when conditions affecting relevant markets or individual issues or circumstances warrant such action. Buying and selling securities generally involves some expense to the Fund, such as broker commissions and other transaction costs, and a high turnover rate (100% or more) in any year will result in payment by the Fund of above-average transaction costs and could result in the payment by shareholders of above-average amounts of taxes on realized investment gains. Distributions to shareholders of short-term capital gains are taxed as ordinary income under federal tax laws.

Other Investment Strategies

Although not a principal strategy of the Fund, the Fund may also invest from time to time in the shares of other investment companies, such as exchange-traded funds (“ETFs”) and money market funds, and may also invest in exchange-traded notes (“ETNs”).

If the Advisor believes that adverse market, economic, political or other conditions warrant a temporary defensive posture, the Fund may invest without limit in high-quality, short-term debt securities and money market instruments. These short-term debt securities and money market instruments include commercial paper, certificates of deposit, bankers' acceptances, shares of money market mutual funds, U.S. Government securities and repurchase agreements. If the Fund takes a defensive posture, the Fund may not reach its investment objective. For example, should the market advance during this period, the Fund may not participate as much as it would have if it had been more fully invested. To the extent the Fund invests in shares of another investment company, there will be some duplication of expenses because the Fund would bear its *pro rata* portion of such investment company's management fees and operational expenses.

Principal Risks of Investing in the Fund

There is no assurance that the Fund's objective will be achieved. Because prices of common stocks and other securities fluctuate, the value of an investment in the Fund will vary as the market value of its investment portfolio changes. By itself, the Fund is not a complete, balanced investment plan, and the risk exists that you could lose all or a portion of your investment in the Fund. A detailed description of the related risks of investing in the Fund that may adversely affect the Fund's net asset value ("NAV") or total return is discussed below.

Market and Regulatory Risk. Events in the financial markets and economy may cause volatility and uncertainty and adversely affect performance. Such adverse effect on performance could include a decline in the value and liquidity of securities held by the Fund, unusually high and unanticipated levels of redemptions, an increase in portfolio turnover, a decrease in NAV, and an increase in Fund expenses. It may also be unusually difficult to identify both investment risks and opportunities, in which case investment goals may not be met. Market events may affect a single issuer, industry, sector, or the market as a whole. In addition, because of interdependencies between markets, events in one market may adversely impact markets or issuers in which the Fund invests in unforeseen ways. Traditionally liquid investments may experience periods of diminished liquidity. During a general downturn in the financial markets, multiple asset classes may decline in value and the Fund may lose value, regardless of the individual results of the securities and other instruments in which the Fund invests. It is impossible to predict whether or for how long such market events will continue, particularly if they are unprecedented, unforeseen or widespread events or conditions. Therefore it is important to understand that the value of your investment may fall, sometimes sharply and for extended periods, and you could lose money. Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets,

strategies, or investments. In addition, unexpected events and their aftermaths, such as the spread of deadly diseases; natural, environmental or man-made disasters; financial, political or social disruptions; terrorism and war; and other tragedies or catastrophes, can cause investor fear and panic, which can adversely affect the economies of many companies, sectors, nations, regions and the market in general, in ways that cannot necessarily be foreseen.

Equity Securities Risk. The risks that could affect the value of the Fund's shares and the total return on your investment include the possibility that the equity securities held by the Fund will experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect the securities market generally, such as adverse changes in: economic conditions, the general outlook for corporate earnings, interest rates, or investor sentiment. Equity securities may also lose value because of factors affecting an entire industry or sector, such as increases in production costs, or factors directly related to a specific company, such as decisions made by its management.

Management Risk. Your investment in the Fund varies with the success and failure of the Advisor's investment strategies and the Advisor's research, analysis and determination of portfolio securities. If the Advisor's investment strategies do not produce the expected results, your investment could be diminished.

Foreign Securities Risk. Foreign securities are subject to higher political, social and economic risks. These risks include, but are not limited to, a downturn in the country's economy, excessive taxation, political instability, and expropriation of assets by foreign governments. Compared to the U.S., foreign governments and markets often have less stringent accounting, disclosure, and financial reporting requirements.

Foreign securities can be more volatile than domestic (U.S.) securities. Securities markets of other countries are generally smaller than U.S. securities markets. Many foreign securities may also be less liquid than U.S. securities, which could affect the Fund's investments. The exchange rates between the U.S. dollar and foreign currencies might fluctuate, which could negatively affect the value of the Fund's investments.

Emerging Markets Risk. Investing in securities of issuers located in emerging markets may pose greater risks not typically associated with investing in more established markets such as increased risk of social, political and economic instability. Emerging market countries typically have smaller securities markets than developed countries and therefore less liquidity and greater price volatility than more developed markets. Securities traded in emerging markets may also be subject to risks associated with the lack of modern technology, poor infrastructures,

the lack of capital base to expand business operations and the inexperience of financial intermediaries, custodians and transfer agents.

ADR Risk. Investing in ADRs may involve risks in addition to the risks in domestic investments, including less regulatory oversight and less publicly-available information, less stable governments and economies, and non-uniform accounting, auditing and financial reporting standards.

Sector Emphasis Risk. Investments within the same economic sector may decline in price due to sector-specific market or economic developments. Although the Advisor selects stocks on their individual merits, it is expected that when the Fund's investments are categorized into their respective economic sectors some sectors will represent a larger portion of the overall portfolio than other sectors. As a result, potential negative developments affecting one of the larger sectors could have a greater impact on the Fund than a fund with fewer holdings in that sector.

Socially Responsible Investing Policy Risk. The Fund's portfolio is subject to socially responsible investment criteria. As a result, the Fund may pass up opportunities to buy certain securities when it is otherwise advantageous to do so, or may sell securities for social reasons when it is otherwise disadvantageous to do so.

Small- and Medium-Sized Company Risk. Investing in securities of small- and medium-sized companies may involve greater volatility than investing in larger and more established companies because they can be subject to more abrupt or erratic share price changes than larger, more established companies. Securities of these types of companies may have limited market liquidity, and their prices may be more volatile.

Large-Sized Company Risk. The stocks of larger companies may underperform relative to those of small and mid-sized companies. Larger, more established companies may be unable to respond quickly to new competitive challenges, such as changes in technology and consumer tastes. Many larger companies may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Short Sales Risk. Short sales involve specific risk considerations and may be considered a speculative technique. Since the Fund in effect profits from a decline in the price of the securities sold short without the need to invest the full purchase price of the securities on the date of the short sale, the Fund's NAV per share will tend to increase more when the securities it has sold short decrease in value, and to decrease more when the securities it has sold short increase in value, than would otherwise be the case if it had not engaged in such short sales. The amount of any

gain will be decreased, and the amount of any loss increased, by the amount of any premium, dividends or interest the Fund may be required to pay in connection with the short sale. Furthermore, under adverse market conditions the Fund might have difficulty purchasing securities to meet its short sale delivery obligations, and might have to sell portfolio securities to raise the capital necessary to meet its short sale obligations at a time when fundamental investment considerations would not favor such sales.

REIT Risk. Investments in REITs will be subject to the risks associated with the direct ownership of real estate. Risks commonly associated with the direct ownership of real estate include fluctuations in the value of underlying properties, defaults by borrowers or tenants, changes in interest rates and risks related to general or local economic conditions. REITs are more dependent upon specialized management skills, have limited diversification and are, therefore, generally dependent on their ability to generate cash flow to make distributions to shareholders. REITs are subject to complex tax qualification and compliance rules. In addition, REITs have their own expenses, and the Fund will bear a proportionate share of those expenses.

Non-Principal Risks

Other Investment Company Risk. If the Fund invests in shares of another investment company, such as a money market fund, shareholders will indirectly bear fees and expenses charged by the underlying investment company in which the Fund invests in addition to the Fund's direct fees and expenses. The risk of owning an investment company generally reflects the risks of owning the underlying securities it holds. Furthermore, investments in other investment companies could affect the timing, amount and character of distributions to shareholders and therefore may increase the amount of taxes payable by investors in the Fund.

ETF Risk. When the Fund invests in an ETF, it will bear additional expenses based on its pro rata share of the ETF's operating expenses, including the potential duplication of management fees. The Fund also will incur brokerage costs when it purchases ETFs. The risk of owning an ETF generally reflects the risks of owning the underlying securities it holds. Many ETFs seek to replicate a specific benchmark index. However, an index-based ETF may not fully replicate the performance of its benchmark index for many reasons, including because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of stocks held. Lack of liquidity in an ETF could result in an ETF being more volatile than the underlying portfolio of securities it holds.

In addition, because of ETF expenses, compared to owning the underlying securities directly, it may be more costly to own an ETF.

ETN Risk. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying commodities markets, changes in the applicable interest rates, changes in the issuer's credit rating and economic, legal, political or geographic events that affect the referenced commodity. If a rating agency lowers the issuer's credit rating, the value of the ETN will decline and a lower credit rating reflects a greater risk that the issuer will default on its obligation. There may be restrictions on the Fund's right to redeem its investment in an ETN, which are meant to be held until maturity. The Fund's decision to sell its ETN holdings may be limited by the availability of a secondary market. The Fund's ability to invest in ETNs may be limited by federal income tax requirements regarding the diversification of the Fund's assets and source of the Fund's income.

PORTFOLIO HOLDINGS INFORMATION

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information ("SAI"). Currently, disclosure of the Fund's holdings is required to be made quarterly within 60 calendar days of the end of each fiscal quarter in the annual report and semi-annual report to Fund shareholders and in the quarterly holdings report on Part F of Form N-PORT. The Fund's top ten holdings and a complete list of the Fund's portfolio holdings as of each calendar quarter-end are available on the Fund's website at www.allegiancefund.com within five to ten business days after the calendar quarter-end. The annual and semi-annual reports are available by contacting American Trust Allegiance Fund, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, Wisconsin 53201-0701, on the Fund's website at www.allegiancefund.com, by calling 1-800-385-7003 and on the SEC's website at www.sec.gov.

MANAGEMENT OF THE FUND

Investment Advisor

American Trust Investment Advisors, LLC, located at One Court Street, Lebanon, New Hampshire 03766, is the Fund's investment adviser and is dedicated primarily to providing investment management and marketing services to the Fund. The Advisor has provided investment management services to individual and institutional accounts since 2001. As of April 30, 2020, the Advisor had \$230,800,000 in assets under management.

The Advisor provides the Fund with advice on buying and selling securities, manages the investments of the Fund, furnishes the Fund with office space and certain administrative services, and provides the personnel needed by the Fund. As compensation, the Fund pays the Advisor a monthly management fee based upon its average daily net assets. For the fiscal year ended February 29, 2020, the Advisor received management fees of 0.52% of the Fund's average daily net assets, after taking into account the Expense Cap.

A discussion regarding the basis of the Board's approval of the Fund's investment advisory agreement is included in the Fund's annual report for the fiscal year ended February 29, 2020.

Portfolio Managers

Paul H. Collins and Carey Callaghan are principally responsible for the day-to-day management of the Fund's portfolio and serve as co-portfolio managers.

Mr. Collins has been active in the investment field professionally for over 30 years. Mr. Collins is President of the Advisor and has been managing client assets since 1991. Mr. Collins has been a portfolio manager of the Fund since its inception.

Prior to joining the Advisor in August 2006, Mr. Callaghan served as both a Senior Research Analyst and a Director of Research in the Investment Research Division of Goldman Sachs from 1995 to 2006. He graduated from Dartmouth College in 1983 with a major in economics and environmental studies and received an M.B.A. in 1988 from Columbia University. Mr. Callaghan has held the position of Chief Investment Officer at the Advisor and has been a portfolio manager of the Fund since August 2006.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and their ownership of securities in the Fund.

Fund Expenses

The Fund is responsible for its own operating expenses. The Advisor has contractually agreed to waive a portion or all of its management fees and pay Fund expenses to ensure that the Fund's aggregate annual operating expenses (excluding AFFE, taxes, interest expense, and extraordinary expenses, do not exceed 1.45% of average daily net assets, through at least June 27, 2021. The term of the Fund's operating expense limitation agreement is indefinite and it can only be terminated upon a vote of the Board. The Advisor may request recoupment of previously waived fees and paid expenses in any subsequent month in the thirty-six month period from the date of the management fee reduction and expense payment if the aggregate amount actually paid by the Fund toward the operating expenses for such fiscal year (taking into account the reimbursement) will not cause the Fund to exceed the lesser of: (1) the expense limitation in place at the time of the management fee reduction and expense payment; or (2) the expense limitation in place at the time of the reimbursement. Any such recoupment must be approved by the Board. The Fund must pay its current ordinary operating expenses before the Advisor is entitled to any recoupment of management fees and paid expenses.

SHAREHOLDER INFORMATION

Share Price

Shares of the Fund are sold at NAV per share, which is calculated for the Fund as of the close of regular trading (generally, 4:00 p.m., Eastern Time) on each day that the New York Stock Exchange (“NYSE”) is open for unrestricted business. However, the Fund’s NAV per share may be calculated earlier if trading on the NYSE is restricted or as permitted by the SEC. The NYSE is closed on weekends and most national holidays. The NAV per share will not be calculated on days when the NYSE is closed for trading.

Purchase and redemption requests are priced at the next NAV per share calculated after receipt of such requests. The NAV is the value of the Fund’s securities, cash and other assets, minus all expenses and liabilities (assets – liabilities = NAV). NAV per share is determined by dividing NAV by the number of shares outstanding (NAV/ # of shares = NAV per share). The NAV takes into account the expenses and fees of the Fund, including management, transfer agency and administration fees, which are accrued daily.

In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. Each security owned by the Fund that is listed on a securities exchange is valued at its last sale price on that exchange on the date as of which assets are valued. Where the security is listed on more than one exchange, the Fund will use the price of the exchange that the Fund generally considers to be the principal exchange on which the security is traded. When market quotations are not readily available, a security or other asset is valued at its fair value as determined under procedures approved by the Board. These fair value procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Advisor to believe that a security’s last sale price may not reflect its actual market value. The intended effect of using fair value pricing procedures is to ensure that the Fund is accurately priced. The Board will regularly evaluate whether the Fund’s fair valuation pricing procedures continue to be appropriate in light of the specific circumstances of the Fund and the quality of prices obtained through their application by the Trust’s valuation committee.

When fair value pricing is employed, the prices of securities used to calculate the Fund’s NAV per share may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different from the price of the security quoted or published by others or the value when trading resumes or realized upon its sale. Therefore, if a shareholder

purchases or redeems shares in the Fund when it holds securities priced at a fair value, this may have the unintended effect of increasing or decreasing the number of shares received in a purchase or the value of the proceeds received upon a redemption.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time the Fund's NAV per share is calculated (such as a significant surge or decline in the U.S. or other markets), often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Fund will value foreign securities at fair value, taking into account such events, in calculating the NAV per share. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Fund's NAV per share in advance of the time the NAV per share is calculated. The Advisor anticipates that the Fund's portfolio holdings will be fair valued only if market quotations for those holdings are considered unreliable.

HOW TO PURCHASE SHARES OF THE FUND

There are several ways to purchase shares of the Fund. An account application, which accompanies this Prospectus, is used if you send money directly to the Fund by mail or wire. Payment should be made by check in U.S. dollars and drawn on a U.S. bank, savings and loan, or credit union, or sent by wire transfer. Checks should be made payable to “American Trust Allegiance Fund.”

The Fund will not accept payment in cash or money orders. To prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares. The Fund is unable to accept post-dated checks or any conditional order or payment.

If your payment is returned for any reason, a \$25 fee will be assessed against your account. You will also be responsible for any losses suffered by the Fund as a result.

The Fund does not issue share certificates and its shares are not registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses. The Fund reserves the right to reject any purchase in whole or in part. If you have questions about how to invest, or about how to complete the account application, please call an account representative at 1-800-385-7003.

In compliance with the USA PATRIOT Act of 2001, please note that U.S. Bancorp Fund Services, LLC (the “Transfer Agent”) will verify certain information on your account application as part of the Fund’s Anti-Money Laundering Program. As requested on the account application, you must provide your full name, date of birth, social security number and permanent street address. If you are opening the account in the name of a legal entity (*e.g.*, partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Mailing addresses containing only a P.O. Box will not be accepted. Please contact the Transfer Agent at 1-800-385-7003 if you need assistance when completing your account application.

If the Transfer Agent does not have a reasonable belief of the identity of an investor, the account will be rejected or the investor will not be allowed to perform a transaction on the account until such information is received. The Fund may also reserve the right to close the account within five business days if clarifying information/documentation is not received.

You may Send Money to the Fund by Mail

If you wish to invest by mail, simply complete the account application and mail it with a check (made payable to “American Trust Allegiance Fund”) to:

Regular Mail

American Trust Allegiance Fund
c/o U.S. Bank Global Fund Services
P.O. Box 701
Milwaukee, Wisconsin 53201-0701

Overnight Delivery

American Trust Allegiance Fund
c/o U.S. Bank Global Fund Services
615 East Michigan Street, Third Floor
Milwaukee, Wisconsin 53202

Note: *The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bank Global Fund Services’ post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent’s office.*

You may Wire Money to the Fund

If you are making your first investment in the Fund, the Transfer Agent must have previously received a completed account application before you can send your wire purchase. You can mail or overnight deliver your account application to the Transfer Agent at the above address. Upon receipt of your completed account application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire payment. Your bank must include the name of the Fund you are purchasing, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

U.S. Bank National Association
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202
ABA No. 075000022
Credit: U.S. Bancorp Fund Services, LLC
A/C No. 112-952-137
FFC: *American Trust Allegiance Fund*
Shareholder Registration
Shareholder Account Number

Wired funds must be received prior to 4:00 p.m. Eastern Time to be eligible for same day pricing. Neither the Fund, nor U.S. Bank N.A. is responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Please contact the Transfer Agent prior to sending a wire payment in order to ensure proper credit. If you are making a subsequent purchase, your bank should wire funds as indicated above. *It is essential that your bank include complete information about your account in all wire instructions.* If you have questions about how to invest by wire, you may call the Transfer Agent at 1-800-385-7003. Your bank may charge you a fee for sending a wire payment to the Fund.

You may Purchase Additional Shares by Telephone

Investors may purchase additional shares of the Fund by calling 1-800-385-7003. If you have been authorized to perform telephone transactions (either by completing the required portion of your account application or by subsequent arrangement in writing with the Fund), and your account has been open for at least 7 business days, telephone orders will be accepted via electronic funds transfer from your bank account through the Automated Clearing House (“ACH”) network. You must have banking information established on your account prior to making a purchase. If your order is received prior to 4:00 p.m. Eastern Time, your shares will be purchased at the NAV calculated on that day. Once a telephone transaction has been requested, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m. Eastern Time).

You may Purchase Shares through an Investment Broker

You may buy and sell shares of the Fund through certain brokers (and their agents, together, “brokers”) that have made arrangements with the Fund’s distributor. An order placed with such a broker is treated as if it was placed directly with the Fund, and will be executed at the next share price calculated by the Fund. Brokers may be authorized by the Fund’s principal underwriter to designate other brokers and financial intermediaries to accept orders on the Fund’s behalf. An order is deemed to be received when the Fund, a broker, or if applicable, a broker’s authorized designee accepts the order. Your shares will be held in the broker’s name, and the broker will maintain your individual ownership information. The Advisor may pay the broker for maintaining these records as well as providing other shareholder services. In addition, the broker may charge you a fee for handling your order. The broker is responsible for processing your order correctly and promptly, keeping you advised of the status of your individual account, confirming your transactions and ensuring that you receive copies of the Fund’s Prospectus.

Minimum Investments

The minimum initial investment for a regular account or a Uniform Gifts/Transfer to Minors Act account in the Fund is \$2,500. The minimum subsequent investment is \$250. However, if you are investing in an IRA or Coverdell Education Savings account, or you are starting an Automatic Investment Plan (see below), the minimum initial and subsequent investments are \$1,000 and \$100, respectively. The Fund's minimum investment requirements may be waived from time to time by the Advisor, and for the following types of shareholders:

- current and retired employees, directors/trustees and officers of the Trust, the Advisor and its affiliates and certain family members of each of them (*i.e.*, spouse, child, parent, sibling, grandchild and grandparent, in each case including in-law, step and adoptive relationships);
- any trust, pension, profit sharing or other benefit plan for current and retired employees, directors/trustees and officers of the Advisor and its affiliates;
- current employees of the Transfer Agent, broker-dealers who act as selling agents for the Fund, intermediaries that have marketing agreements in place with the Advisor and the immediate family members of any of them;
- existing clients of the Advisor, their employees and immediate family members of such employees;
- registered investment advisers who buy through a broker-dealer or service agent who has entered into an agreement with the Fund's distributor; and
- qualified broker-dealers who have entered into an agreement with the Fund's distributor.

Subsequent Investments

You may purchase additional shares of the Fund by sending a check, with the *Invest By Mail* form from an your investor statement, to the Fund at the address above. Please also write your account number on the check. If you do not have the *Invest By Mail* form from your investor statement, you can write the Fund name, your name, address and account number on a separate piece of paper and enclose it with your check. If you want to invest additional money by wire, it is important for you to first call the Fund at 1-800-385-7003.

When is Money Invested in the Fund?

If received by an authorized agent or the Transfer Agent before 4:00 p.m. Eastern Time, any money received for investment in the Fund, whether sent by check or by wire, is invested at the NAV per share of the Fund which is next calculated after the money is received (assuming the check or wire correctly identifies the Fund and account). The NAV per share is calculated at the close of regular trading on the NYSE, generally 4:00 p.m. Eastern Time. A check or wire received after the NYSE closes is invested as of the next calculation of the Fund's NAV per share.

Retirement Plans

You may obtain prototype IRA plans from the Fund. Shares of the Fund are also eligible investments for other types of retirement plans.

Automatic Investment Plan

You may make regular monthly investments in the Fund using the Automatic Investment Plan ("AIP"). In order to participate in the AIP, your financial institution must be an ACH member. An ACH debit is drawn electronically against your account at a financial institution of your choice. Upon receipt of the withdrawn funds, the Fund automatically invests the money in additional shares of the Fund at the next calculated NAV per share. There is no charge by the Fund for this service. The Fund may terminate or modify this privilege at any time. You may terminate or modify your participation by notifying the Transfer Agent at least five calendar days prior to the date of the next AIP transfer. Once the initial minimum investment of \$1,000 is made, the minimum monthly investment amount is \$100. A request to change bank information will require a signature guarantee or other acceptable form of signature authentication from a financial institution source. Additionally, the Transfer Agent will charge a \$25 fee for any payment returned as unpaid. To establish the AIP, an investor must complete the appropriate sections of the account application. For additional information on the AIP, please call the Transfer Agent at 1-800-385-7003.

HOW TO REDEEM YOUR SHARES

You have the right to redeem all or any portion of your shares of the Fund at their next calculated NAV per share on each day the NYSE is open for trading. A redemption may result in recognition of a gain or loss for federal income tax purposes.

Generally, the Fund expects that it will take one to three days following the receipt of your redemption request to pay out redemption proceeds; however, while not expected, payment of redemption proceeds may take up to seven days. As further described below, you may receive redemption proceeds in a check, ACH, or federal wire transfer. Payment of redemption proceeds in a check and/or wire payment will typically be sent out on the next business day. Redemptions sent by electronic funds transfer will typically be available in your bank account within two to three business days.

The Fund typically expects that it will hold cash or cash equivalents to meet redemption requests. The Fund may also use the proceeds from the sale of portfolio securities to meet redemption requests if consistent with the management of the Fund. These redemption methods will be used regularly and may also be used in unusual conditions. The Fund may delay paying redemption proceeds for up to seven calendar days after receiving a request, if an earlier payment could adversely affect the Fund. The Fund may also suspend the right of redemption under certain extraordinary circumstances in accordance with rules of the U.S. Securities and Exchange Commission.

The Fund reserves the right to redeem in-kind as described under “Other Information about Redemptions” below. Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund’s net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind are typically only used in unusual circumstances. The Fund also has in place a line of credit that may be used to meet redemption requests during unusual circumstances.

Shareholders who have an IRA or other retirement plan must indicate on their written redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election to have tax withheld will be subject to a 10% withholding. Shares held in IRA accounts may be redeemed by telephone at 1-800-385-7003. Investors will be asked whether or not to withhold taxes from any distribution.

When Are Redemption Payments Made?

No redemption request will be processed until the Transfer Agent has received all documents in proper form. Shareholders should contact the Transfer Agent at 1-800-385-7003 for further information concerning documentation required for redemption of Fund shares.

If any portion of the shares to be redeemed represents an investment made by check or electronic funds transfer through the ACH network, the Fund may delay the payment of the redemption proceeds until the Transfer Agent is reasonably satisfied that the payment for the purchase has been collected. This may take up to 15 calendar days from the purchase date. This delay can be avoided by investing by wire to make your purchase.

Redemptions in Writing

You may redeem shares by simply sending a written request to the Fund. For all redemptions in excess of \$100,000 a signature guarantee is required (see “Signature Guarantees” below). The request should include the Fund name, your account number and state whether you want all or part of your shares redeemed. The letter must be signed by all of the shareholders whose names appear in the account registration. You should send your redemption request to:

Regular Mail

American Trust Allegiance Fund
c/o U.S. Bank Global Fund Services
P.O. Box 701
Milwaukee, Wisconsin 53201-0701

Overnight Delivery

American Trust Allegiance Fund
c/o U.S. Bank Global Fund Services
615 East Michigan Street, Third Floor
Milwaukee, Wisconsin 53202

Note: The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bank Global Fund Services' post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's office.

Redemptions by Telephone

If you accepted telephone options on your account application, you may redeem shares up to \$100,000 on any business day the NYSE is open by calling the Transfer Agent at 1-800-385-7003 before the close of trading on the NYSE. Redemption

proceeds will be sent on the next business day to the address that appears on the Transfer Agent's records. If you request, redemption proceeds will be wired on the next business day to your designated bank account or sent via electronic funds transfer through the ACH network, to your predetermined bank account. The minimum amount that may be wired is \$1,000. Wire charges, currently \$15, will be deducted from your redemption proceeds on a complete or share certain redemption. In the case of a partial or dollar certain redemption, the wire fee will be deducted from the remaining account balance. You may also receive redemption proceeds to your bank account of record via electronic funds transfer through the ACH network; however, credit may not be available in your bank account for two to three days. There is no charge to have proceeds sent by electronic funds transfer and credit is typically available in your bank account in two to three business days. Telephone redemptions cannot be made if you notify the Transfer Agent of a change of address within 15 calendar days before the redemption request. Once a telephone transaction has been placed, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m. Eastern Time). If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

By establishing telephone redemption privileges, you authorize the Fund and its Transfer Agent to act upon the instruction of any person who makes the telephone call to redeem shares from your account and transfer the proceeds as requested. The Fund and the Transfer Agent will use procedures to confirm that redemption instructions received by telephone are genuine, including recording of telephone instructions and requiring a form of personal identification before acting on these instructions. If these normal identification procedures are followed, neither the Fund nor the Transfer Agent will be liable for any loss, liability, or cost that results from acting upon instructions of a person believed to be a shareholder with respect to the telephone redemption privilege. The Fund may change, modify, or terminate these privileges at any time upon at least 60 days' notice to shareholders.

You may request telephone redemption privileges after your account is opened; however, the authorization form may require a separate signature guarantee or other acceptable form of signature authentication from a financial institution source. You may encounter higher than usual call wait times during periods of high market activity. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. If you are unable to contact the Fund by telephone, you may mail your redemption request in writing to the address noted above. Once a telephone transaction has been accepted, it may not be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m. Eastern Time).

Signature Guarantees

A signature guarantee of each account owner, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- When ownership is being changed on your account;
- When redemption proceeds are payable to or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- For all redemptions in excess of \$100,000 from any shareholder account.

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source.

The Fund and/or the Transfer Agent reserve the right at their discretion to require a signature guarantee or signature validation program stamp in other circumstances.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program. *A notary public is not a signature guarantor.*

Systematic Withdrawal Plan

The Fund offers a Systematic Withdrawal Plan (“SWP”) whereby you may request that a payment drawn in a predetermined amount be sent to you monthly, quarterly or annually. You may elect to have proceeds sent by check to the address of record, or proceeds may be sent directly to a designated bank account via electronic funds transfer through the ACH network. To start this SWP, your account must have Fund shares with a value of at least \$10,000, and the minimum payment amount is \$50. The SWP may be terminated or modified by you or the Fund at any time without charge or penalty. Termination and modification of your SWP should be provided to the Transfer Agent at least five calendar days prior to the next withdrawal. A withdrawal under the SWP involves a redemption of shares of the Fund, and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds any increase in the value of your account (due

to asset appreciation or dividends credited to your account, for example), the account ultimately may be depleted.

Other Information about Redemptions

Due to the relatively high cost of maintaining smaller accounts, the shares in your account (unless it is a retirement plan or Uniform Gifts or Transfers to Minors Act account) may be redeemed by the Fund if, due to redemptions you have made, the total value of your account is reduced to less than \$500. If the Fund determines to make such an involuntary redemption, you will first be notified that the value of your account is less than \$500, and you will be allowed 30 calendar days to make an additional investment to bring the value of your account to at least \$500 before the Fund takes any action.

The Fund has the right to pay redemption proceeds to you in whole or in part by a distribution of securities from the Fund's portfolio, a redemption in-kind. It is not expected that the Fund would do so except in unusual circumstances. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash. A redemption, whether in cash or in-kind is a taxable event for you.

Tools to Combat Frequent Transactions

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by Fund shareholders. The Fund discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm the Fund's performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps include monitoring trading practices and using fair value pricing. Although these efforts (which are described in more detail below) are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity may occur. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect the Fund's performance or whether the shareholder has conducted four round trip transactions within a 12-month period. Further, while the Fund makes efforts to identify and restrict frequent trading, the Fund receives purchase and sale orders through financial intermediaries and cannot always know or detect frequent trading that may be facilitated by the use of intermediaries or the use of group or omnibus accounts by those intermediaries. The Fund seeks to exercise its judgment in implementing these tools to the best of its abilities in a manner that the Fund believes is consistent with shareholder interests.

Monitoring Trading Practices

The Fund monitors selected trades in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, the Fund believes that a shareholder has engaged in excessive short-term trading, it may, in its discretion, ask the shareholder to stop such activities or refuse to process purchases in the shareholder's accounts. In making such judgments, the Fund seeks to act in a manner that it believes is consistent with the best interests of shareholders. Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In addition, the Fund's ability to monitor trades that are placed by individual shareholders within group or omnibus accounts maintained by financial intermediaries is limited because the Fund does not have simultaneous access to the underlying shareholder account information.

Quasar Distributors, LLC, the Fund's distributor, on behalf of the Fund, has entered into written agreements with each of the Fund's financial intermediaries, under which the intermediary must, upon request, provide the Fund with certain shareholder and identity trading information so that the Fund can enforce its market timing policies.

Fair Value Pricing

The Fund employs fair value pricing selectively to ensure greater accuracy in its daily NAV and to prevent dilution by frequent traders or market timers who seek to take advantage of temporary market anomalies. The Board has developed procedures which utilize fair value pricing when reliable market quotations are not readily available or the Fund's pricing service does not provide a valuation (or provides a valuation that in the judgment of the Advisor to the Fund does not represent the security's fair value), or when, in the judgment of the Advisor, events have rendered the market value unreliable. Valuing securities at fair value involves reliance on judgment. Fair value determinations are made in good faith in accordance with procedures adopted by the Board and are reviewed by the Board. There can be no assurance that the Fund will obtain the fair value assigned to a security if it were to sell the security at approximately the time at which the Fund determines its NAV per share.

More detailed information regarding fair value pricing can be found under the heading titled, "Shareholder Information – Share Price."

GENERAL POLICIES

Some of the following policies are mentioned above. In general, the Fund reserves the right to:

- Refuse, change, discontinue, or temporarily suspend account services, including purchase, or telephone redemption privileges, for any reason;
- Reject any purchase request for any reason. Generally, the Fund will do this if the purchase is disruptive to the efficient management of the Fund (due to the timing of the investment or an investor's history of excessive trading);
- Redeem all shares in your account if your balance falls below \$500 due to redemption activity. If, within 30 days of the Fund's written request, you have not increased your account balance, you may be required to redeem your shares. The Fund will not require you to redeem shares if the value of your account drops below the investment minimum due to fluctuations of NAV; and
- Reject any purchase or redemption request that does not contain all required documentation.

If you elect telephone privileges on the account application or in a letter to the Fund, you may be responsible for any fraudulent telephone orders as long as the Fund has taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern Time).

Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. If you are unable to contact the Fund by telephone, you may also mail your request to the Fund at the address listed under "Purchasing Shares."

Your financial intermediary may establish policies that differ from those of the Fund. For example, the organization may charge transaction fees, set higher minimum investments, or impose certain limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your financial intermediary for details.

DISTRIBUTIONS AND TAXES

Dividends and Distributions

Dividends from net investment income, if any, are normally declared and paid by the Fund typically in December. Capital gain distributions, if any, are also normally made in December, but the Fund may make an additional payment of dividends or capital gain distributions if it deems it desirable at any other time during any year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive capital gain distributions in cash while reinvesting dividends in additional Fund shares; (2) receive dividends in cash while reinvesting capital gain distributions in additional Fund shares; or (3) receive all distributions in cash. Distributions are taxable whether received in cash or additional Fund shares. If you wish to change your distribution option, notify the Transfer Agent, either in writing or by telephone, at least five calendar days in advance of the payment date for the distribution.

If you elect to receive any distributions paid in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution check in your account, at the Fund's current NAV per share, and to reinvest all subsequent distributions.

Any dividend or capital gain distribution paid by the Fund has the effect of reducing the NAV per share on the ex-dividend date by the amount of the dividend or capital gain distribution. You should note that a dividend or capital gain distribution paid on shares purchased shortly before that dividend or capital gain distribution was declared will be subject to income taxes even though the dividend or capital gain distribution represents, in an economic sense, a partial return of capital to you.

Taxes

The Fund has elected and intends to continue to qualify to be taxed as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). As a regulated investment company, the Fund will not be subject to federal income tax if it distributes its taxable income as required by the tax law and satisfies certain other requirements that are described in the SAI.

Distributions made by the Fund will be taxable to shareholders whether received in shares (through reinvestment) or in cash. Distributions derived from net investment income, including net short-term capital gains, are taxable to shareholders as ordinary income or, under current law, as qualified dividend income. Distributions reported as capital gain dividends are taxable to shareholders

as long-term capital gains regardless of the length of time the shareholder held his or her shares of the Fund. Generally none or only a small portion of the dividends paid to you as a result of the Fund's investment in real estate investment trusts is anticipated to be qualified dividend income eligible for taxation by individuals at long-term capital gain tax rates. A 3.8% federal surtax applies to net investment income (which generally will include dividends and capital gains from the Fund) of shareholders with adjusted gross incomes in excess of \$200,000 for single filers and \$250,000 for joint filers. Although distributions generally are taxable when received, distributions declared in October, November, or December to shareholders of record on a specified date in such a month but paid in January are taxable as if received the prior December.

Sale of your Fund shares, is a taxable event for you. Depending on the purchase and sale price of the shares you sell, you may have a gain or loss on the transaction. You are responsible for any tax liabilities generated by your transaction. The Code limits the deductibility of capital losses in certain circumstances.

For taxable years beginning after 2017 and before 2025, non-corporate taxpayers generally may deduct 20% of "qualified business income" derived either directly or through partnerships or S corporations. For this purpose, "qualified business income" generally includes ordinary real estate investment trust ("REIT") dividends and income derived from master limited partnership ("MLP") investments. There is currently no mechanism for the Fund, to the extent that the Fund invests in REITs or MLPs, to pass through to non-corporate shareholders, the character of ordinary REIT dividends or income derived from MLP investments so as to allow such shareholders to claim this deduction. It is uncertain whether future legislation or other guidance will enable the Fund to pass through to non-corporate shareholders the ability to claim this deduction.

By law, the Fund must withhold a percentage of your taxable distributions and redemption proceeds if you do not provide your correct Social Security or taxpayer identification number and certify that you are not subject to backup withholding tax, or if the Internal Revenue Service instructs the Fund to do so.

Additional information concerning taxation of the Fund and its shareholders is contained in the SAI. Tax consequences are not the primary consideration of the Fund when making its investment decision. You should consult your own tax adviser concerning federal, state and local taxation of distributions from the Fund.

Fund Mailings

Statements and reports that the Fund sends to you include the following:

- Confirmation statements (after every transaction that affects your account balance or your account registration);
- Annual and semi-annual shareholder reports (every six months); and
- Quarterly account statements.

Householding

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses and annual and semi-annual reports, proxy statements and other similar documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Transfer Agent reasonably believes are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-800-385-7003 to request individual copies of these documents. Once the Transfer Agent receives notice to stop householding, the Transfer Agent will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

Lost Shareholders, Inactive Accounts and Unclaimed Property.

It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-800-385-7003 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may

be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

Service Fees – Other Payments to Third Parties

The Fund may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

The Fund has policies and procedures in place for the monitoring of payments to broker-dealers and other financial intermediaries for the following non-distribution activities: sub-transfer agent, administrative, and other shareholder services.

The Advisor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to intermediaries who sell shares of the Fund. Such payments and compensation are in addition to service fees paid by the Fund. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. Cash compensation may also be paid to intermediaries for inclusion of the Fund on its sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the intermediary provides shareholder services to the Fund's shareholders. The Advisor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

INDEX DESCRIPTION

Please note that you cannot invest directly in an index, although you may invest in the underlying securities represented in the index.

The **S&P 500[®] Index** is an unmanaged capitalization-weighted index of 500 stocks designed to represent the broad domestic market. The Index includes the reinvestment of dividends.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The information has been audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request.

For a share outstanding throughout each year

	Year Ended				
	<u>2/29/20</u>	<u>2/28/19</u>	<u>2/28/18</u>	<u>2/28/17</u>	<u>2/29/16</u>
Net asset value, beginning of year.	\$27.05	\$29.63	\$26.05	\$22.01	\$28.31
Income from investment operations:					
Net investment income/ (loss).....	0.15	0.05	(0.10)	(0.03)	0.01
Net realized and unrealized gain/(loss) on investments	0.47	(1.00)	4.34	4.59	(4.12)
Total from investment operations.....	0.62	(0.95)	4.24	4.56	(4.11)
Less distributions:					
From net investment income.....	(0.17)	—	—	—	(0.42)
From net realized gain on investments.....	(2.81)	(1.63)	(0.66)	(0.52)	(1.77)
Total distributions.....	(2.98)	(1.63)	(0.66)	(0.52)	(2.19)
Net asset value, end of year.....	<u>\$24.69</u>	<u>\$27.05</u>	<u>\$29.63</u>	<u>\$26.05</u>	<u>\$22.01</u>
Total return.....	1.31%	-2.79%	16.33%	20.90%	-15.13%

PRIVACY NOTICE

The Fund collects non-public information about you from the following sources:

- Information we receive about you on applications or other forms;
- Information you give us orally; and/or
- Information about your transactions with us or others.

We do not disclose any non-public personal information about our customers or former customers without the customer's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibilities. We maintain physical, electronic and procedural safeguards to guard your non-public personal information and require third parties to treat your personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank, or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared by those entities with unaffiliated third parties.

The American Trust Allegiance Fund,

For More Information

The SAI for the Fund includes additional information about the Fund, which is incorporated by reference into this Prospectus.

The Fund's annual and semi-annual reports to shareholders (the "Shareholder Reports") contain additional information about the Fund's investments. The annual report includes a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

The SAI and Shareholder Reports are available free of charge upon request or on the Fund's website at www.allegiancefund.com. To request them or other information, or to ask any questions, please call or write:
